ABOUT THE BENNINGTON RESCUE SQUAD

MISSION

The Bennington Rescue Squad is comprised of dedicated, skilled and compassionate professionals, whose mission is to provide quality emergency medicine and specialty services, while promoting a healthier community through patient care, education, and public service.

VISION

To become a regional leader in providing community-focused health care, medical education, and expanded innovative services.

34

Our mission, vision and values

Our Mission - Why we wear our badge.

Safe, effective and responsive care for all.

The pride we place in delivering our services marks us out as second to none in terms of reliability, professionalism and compassion. People rely on us for the responsive services we provide all day, every day, throughout the areas we serve.

Our Vision - Where our badge will take us.

Unmatched quality of care, every time we touch lives.

Even in the most challenging situations we will strive to perform to the highest professional standards in a spirit of collaboration and teamwork, no matter what the circumstances. We will be acknowledged as the leading specialist care provider when looking after the patients in our care.

35

36

People rise to the standards you set.

37

38

39

People leave when
standards are uncertain.

I quit!!

40

Inventory your policies

41

42

- ☐ Are the guidelines clear?
- ☐ Are the guidelines up to date?
- ☐ Have the guidelines been published and distributed?
- ☐ Are the guidelines enforceable?

Blau, G, Chapman, S. (2011). Retrospectively exploring the importance of factors in the decision to leave the emergency medical services profession and their relationships to life satisfaction after leaving EMS and likelihood of returning to EMS. J Allied Health. 40(2):e29-e32.

- 127 respondents who left the EMS profession
- Being stressed/burned-out and lack of job challenges were the most important factors in the decision to leave EMS
- Desire for better pay and benefits was the least important.

81

Assesses burnout levels associated with:

- Personal
- Work
- Clients (patients)

82

State average was 38%

Patient burnout was lowest 11%

Kristensen T, Borritz M, Villadsen E, et al. (2005). The Copenhagen Burnout Inventory: A new tool for the assessment of burnout. Work & Stress. 19(3): 192-207

83

“Anything goes bad, I did it.
If anything goes semi-good, then we did it.
If anything goes real good, they did it.”
